Suggestions for Improvement

13 responses

Training should be groupwise with one computer and resource person for each group

We could not do any practical work due to internet problem . Could have been better would good internet access.

It will be more useful for executive staffs if this type of training conducted for one week or so

The training was excellent with the vast knowledge of the resource persons. But sorry, in some cases one can operate successfully only if some of the important subject like leave updations and the pay fixations could be done timely from the division and make them flexible for each and every body to operate from the own macine. My personal rating for today's training is 10/10. Thank you for everything.

If group wise training with computer can be conduct then much better.

Every thing was ok

Could you please kindly provide more training for medical allowance submission and others

Good

Sir, about GPF statement and other related works of same must be more then 2 or 3 classes for properly understanding.because of there are a lots of problems we have to face regarding GPF.

No suggestion..Training was informative.

More required of this type tanning

Service book related and update to every year and G.P.F Nomination.

We learned a lot from this training. Many things will be useful in our working life.
