## Suggestion for Improvement

12 responses

More time may be allotted

Linkage of WPA with other general laws needs to be clearly explained with example

Please upload all the ppt of two days training.

This kind of training should be more on focusing the field related actual cases. A request will be placed to please ensure to issue a SOP for pursuing any POR as early as possible.

This type of workshop should be regular intervals upto the level of DR/ Fr .

Need more practical basis Classes

New cases registered by the Divisions can be taken as case study make suggestions.

More this type of training with mock case preparation by the field staff will be helpful.

Need more discussion in application of new laws with our special act after proper training on our own law.

Need more classes

Respected Lecturers and Presenters may include more practical Case Studies regarding various Forest & Wildlife Cases into their material. Otherwise the sessions were interesting, good to learn from law experts. More such sessions may be required in future also. Expressing my deepest gratitude to the Department for including me into this program. Thank You.

A handy book covering the new laws may kindly be provided
