Need more training

Sir one Checklist for all documents of paper with proper format

If this programme will continues one more time,,it will be very helpful

Frequent training required

Need more training in this regard

We are Came from North Bengal Thanks Sir for important topic.

Needmor. Traning

Training should be provided at least once a year for better understand in the relevant subject

The presentation was very good... I will be very helpful if I take more classes like this next time for critical pension cases.

Critical cases should be discussed in detail in future.

Request to organise more training session on the concerned subject.

Requested to arrange more training.

No improvement needed.

Nothing

No suggestions

No need to improve

No suggestion

None

NA

Frequently such training is required

More training like this on realistic cases

More such training need in near future

No comments

It's very helpful but a long session for a day as it is difficult to acquire everything on a single day. One or two days more are needed. But th whole session is satisfactory..

Already very helpful

Again arrange

Very nice but it is long linger process.

More training should be imparted on this kind of topics since these are very vital portions for meeting Govt employees day to day businesses.

More such training sessions are needed to clear our concepts over this topics...

N.A.

This is already too good for us.

Good session. Learned a lot of things. Case histories of many divisions made the interaction joyful & attentive. I would like to request the authorities to conduct a same type of session regarding management of divisional accounts especially WBFDC accounts. Thank you.

More explanation is needed for new employee

If possible,concerned G.O. may kindly be complied in a booklet and soft copy of it may be circulated among the forest units for their future reference.Thank you

Very nice but it is long linger process .

More training on this kind of important topics may be imparted with more duration. Everything was very good.

No improvement

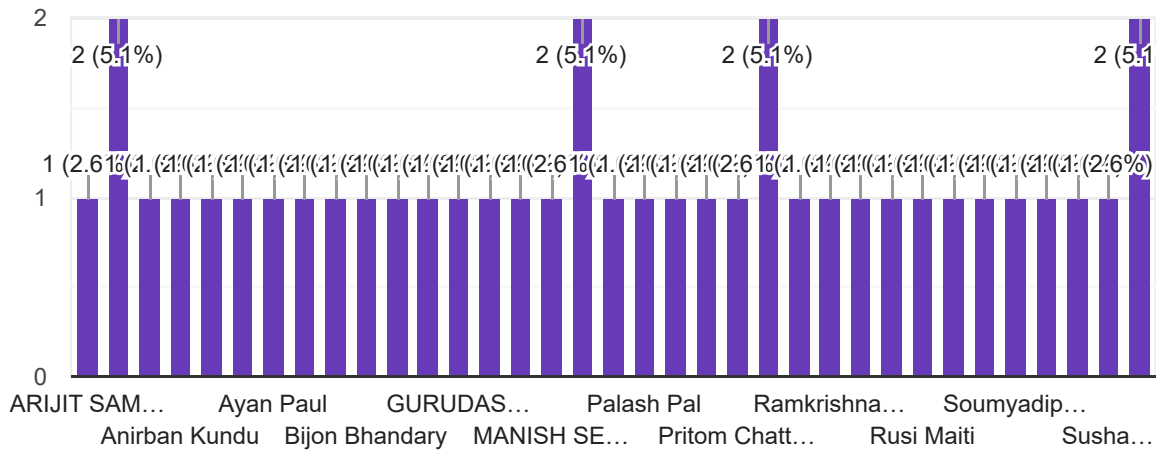

More training on special issues with full details may be helpful.
