Suggestion for improvement

10 responses

None.

More interactive practical sessions required

NA

Nice...we learned basic skills about communication..and time management..we get many skills...knowledge....and learned many things..if this type of ...event is done..the skills will built up for all field staffs..

Confidence level and minimum departmental knowledge for better communication with the participants.

Staffs of all levels should be taken under such training. So that transparency in instrusctions can be maintained. More such trainings should be organizaed for further smooth functioning of the system.

1. Interactive more
2. Use of Effective examples

More practical classes to be included in the course.
