## Suggestions for Improvement

26 responses

At least one review of the training may be done, booklet of materials, soft copy, may be provided

Time constraints

Two more sessions are needed for revision and clarity

Though it was a very enriching experience, I personally feel the duration of the training should be bit longer than just 1 day, so that we can learn things in a comprehensive manner.

Training could have been for 2 days. Overall training was very good

Should be held more often such kind of training

Need these kind of session in every 2 or 3 months .

Training on WFFR & financial orders need to be conducted at regular intervals.

Whats app group with such financial, treasure officer will help more.

This training should be for three days with more details

This type of training is required time to time,so that we can aware of recent G.O,1 day is not sufficient for so many of subject matter.

Half yearly taining will be fruitful .

Very informative session

1. Atleast Two days of workshop would have been better with more elaborate sessions.

Single session on those selected topics is not enough, need more sessions to study the topics

To cover all the topics comprehensively, atleast 3 days should be allotted

May be conducted in due interval in participation with different strata

Another session/day regarding treasury rules will be helpful

As the topics are vast and intricate, I need at least 2 more days of interactive sessions to grasp it all. Thank you.

Need this type of training at least once in a year

All over the training session was good and hands on training also proved fruitful.

Another session on GEM & WBHS, Awareness and discussion on relevant GOs.

Another workshop in this matter will be beneficial to us.

Time span was too short. Coverage with interactive session with more details required.

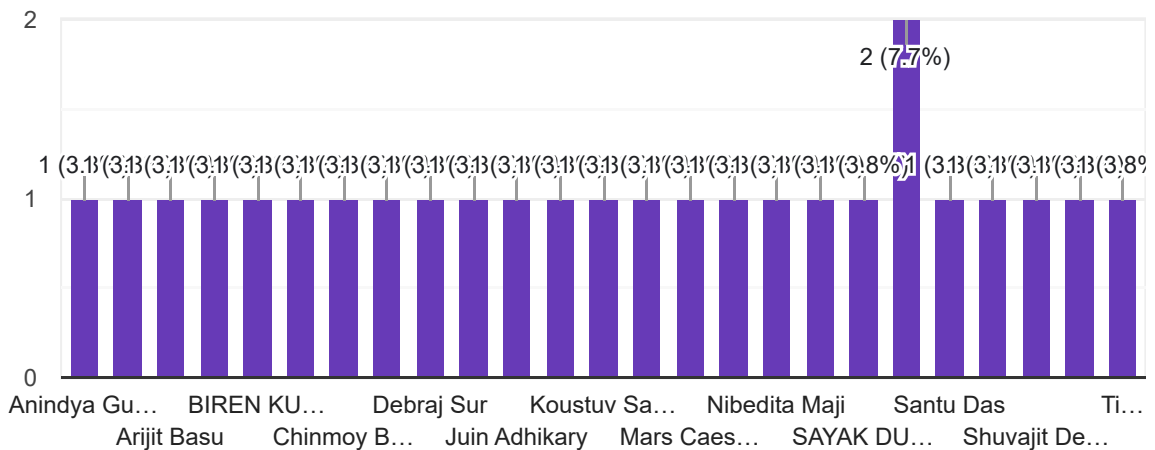

More detail training with case study in every rules,regulations and functions are required

More detail training is required with case study in each rules,regulations
